## CIRCULAR

We are all aware that because of the Covid 19 pandemic, our court is not functioning in routine manner and physical appearance of the Advocates are not taking place. Such situation has created great hardship and financial strain on most of the members particularly our young brothers and sisters. Though we believe that most of the members of NDDBA are established professional having strong standing and even financially stable to take care and sustain this hour of crisis, but some of our members particularly, young ones who are still working their way to establish in profession, are facing acute difficulty and the Executive Committee feels concerned about them.

It is known to one and all that Bar has limited resources of generating revenue to meet its expenses and since March 2020, no revenue has been generated even from those limited resources whereas all the routine expenses are being met. Moreover, it is likely to continue for some more time. Under the situation, despite the EC being concerned for financially weak members, but because of inherent limitations of financial constraints, it is not able to do so.
